

300mm Wrist Assembly

For AMAT VHP® and XP® robots

The Fabworx Solutions™ 300mm wrist assembly is designed to improve yield and productivity in Endura® and Centura® platforms.

- Patented interconnected stainless steel bands replace interlocking pivot gears, improving reliability and wafer placement repeatability.
- Preventive maintenance (PM) is eliminated.
- Ceramic bearings are used for long life.
- Bearings are enclosed to protect from process deposition and prevent particles from entering the process environment.
- Compatible with the OEM or Fabworx end effector.
- End effector leveling adjustments are performed at the wrist for greater alignment accuracy and faster setup time when used with a Fabworx end effector.
- Includes a 2 year warranty.

May be paired with a Fabworx Gravity Edge Hold™ end effector for potential tool throughput gain.

Fabworx is a trademark of Fabworx Solutions, Inc.
